**Subject:** NJ to adopt 14 PPT MCL for PFOA

Hi,

Within the next two weeks NJDEP will be taking steps towards promulgating an MCL of 14 ppt for PFOA, as recommended by the NJ Drinking Water Institute. Meetings with stakeholders will be scheduled during the fall, and a formal rulemaking process will follow. The process is expected to take about 18 months. Current guidance, which establishes an advisory of 40 ppt, will be revised to conform to the 14 ppt level. Until the rulemaking is final, when NJDEP becomes aware of drinking water supplies that have greater than 14 ppt of PFOA, the agency will request the responsible party (if known) to address the matter, or NJDEP will use its own funds to do so. NJDEP expects to prepare FAQs to be available by the end of September.. Municipalities and water districts will be advised that applications for SRF funding for PFOA-related projects will be accepted.

Tx-Doug
